## PROFILE

I am a BCA student at Poornima University, specializing in Artificial Intelligence and Data Science (AIDS). I have a strong interest in technology, especially in web development and artificial intelligence. I am eager to learn new technologies and explore opportunities in start-ups and emerging fields

## EDUCATION

Poornima University, Jaipur

BCA (Artificial Intelligence and Data Science) | 2023 – 2026

Current CGPA: 7.5 (1<sup>st</sup> year )

Swami Vivekanand Govt. Model School, Rajgarh, Alwar

12th Standard (PCB) | 2023 | 60.80%

Swami Vivekanand Govt. Model School, Rajgarh, Alwar

10th Standard | 2021 | 73.60%

## Extra-Curricular Activities & Achievements

- ✓ Certified Python (Basic) - HackerRank (Successfully cleared the assessment for Python programming)
- ✓ Data Mining (NPTEL - Govt. of India) (Completed the online certification course with a consolidated score of 51%)
- ✓ Showcased project "Virtual Mouse" at Prayogam-2024 (Held at Poornima University on February 28, 2024)
- ✓ 2nd Position – Technical Project Competition (Aadhar-XII).Poornima College of Engineering, March 2024.Presented the project “AI Virtual Mouse” at AADHAR-XII, a state-level technical exhibition. Secured 2nd position among multiple participants.

## ADDITIONAL SKILLS

**Languages:** Hindi, English.

**Programming Languages:** C++, Python

**Web Development:** HTML, CSS, JavaScript

**Learning Next:** React, Node.js

## PROJECT

- ✓ AI Virtual Mouse

Poornima University – AADHAR-XII | March 2024 | 2nd Position

Developed a Python-based virtual mouse using OpenCV and hand gesture detection to control cursor, click, scroll, and adjust volume — all without using a physical mouse.

## HOBBIES & INTERESTS

- ✓ Exploring web development (Frontend & Backend)
- ✓ Learning new technologies and frameworks
- ✓ Solving coding challenges & improving problem-solving skills
- ✓ Working on personal projects & experimenting with new tech
